10                  **ORDER**

11                  The Emergency Motion filed by the Commonwealth is denied. Providing internal working  
12                  draft reports of the TCA for review and comment before the TCA submits any report is not  
13                  acceptable to the Court, the same way the Court would not order the parties to show to the TCA  
14                  drafts of motions or other memoranda. The TCA report will not be filed until the parties brief the  
15                  matter at hand. More so, the TCA's constitutional attorneys will review the matter once submitted.

16                  **SO ORDERED.**
